

HIGHLIGHT TOOL NONFUNCTIONAL BELOW 1600X1200 SCREEN RESOLUTION.

When the screen resolution is low (below 1600*1200), the browser window is zoomed in or not maximized, the highlight tool disappears. If the highlighter icon does not display after attempting to highlight text, please attempt the following workflow:

1. Make sure the browser zoom is set to 100% or less. Web content may be zoomed into (Ctrl+) or away from (Ctrl-).
2. Collapse the right side grading pane and the course menu on the left by clicking in the indicated areas below.

3. Highlight the text you wish to comment on and the highlighter icon will display as seen below.

Recent issues, including this one, are forcing rapid change in the assignment grading tools and could result in new behaviors. Please report any new issue to ouhelp@ottawa.edu.
